

# OCONEE COUNTY ~ CENSUS 2010 INFORMATION

[www.census.gov](http://www.census.gov)

## QACs and BCs

The *Questionnaire Assistance Centers* (QACs) are locations in the community where representatives from the Census Bureau will be present for approximately 15 hours per week to answer general questions about the Census and to assist individuals with filling out their Census forms. Many of these representatives have been selected by the owners of each site and are members of the local community.

The **Be Counted (BC)** sites are locations where only a Be Counted box will be present. Inside each BC box are census questionnaire forms in six different languages: English, Spanish, Korean, Vietnamese, Chinese and Russian. These forms are intended to serve individuals who either were not counted through the traditional mail-out/mail-back forms, or who require a questionnaire in their native language.

So that you are aware, all QAC sites have Be Counted boxes, but Be Counted sites have only a box and no representative.

Below is a list of these sites opening March 19, 2010:
