NEW BUSINESS:
Item 1. Rezone #7732, Danny White, R-2 to B-1, +/- 1.3925 acres, southeast corner of Epps Bridge Parkway and Pine Ridge Court. Commercial Bank & Office.

Gabriel presented the staff report, recommending approval of the request subject to six conditions.

Chairman Yarbrough asked if there were comments from the applicant.

David Ellison spoke in favor of the request. Chairman Yarbrough opened the floor for public comment and called for those in favor or against the request to speak.

Kathy Hurley, representing the Tanglebrook Subdivision Neighborhood Association spoke in favor of the request, the group does not oppose the rezone and accepts that the area will eventually be developed for commercial use but asked the commission to consider how to address ingress/egress through Tanglebrook Subdivision. Currently, commercial traffic does not go through Tanglebrook Drive to access commercial areas and the neighborhood group would like Pine Ridge Court to become the primary access for any future commercial development.

Tammy Shelton, resident of Pine Ridge Court, spoke against the request and expressed concerns about congestion and ingress/easement out of Pine Ridge Court because there is no traffic light at the intersection of Pine Ridge Court and Epps Bridge Parkway.

Julie Hunter, resident of Pine Ridge Court and property manager for Chipper Land Company spoke against the request and expressed concerns about current residents of the three duplexes to be demolished, about the remaining duplexes, the increase in traffic, and safety concerns.
Elizabeth Gale Nyseth, resident of Pine Ridge Court, spoke against the request and expressed that it will be a hardship for families that will need to move, and requested that rezoning to commercial use be postponed until the entire Pine Ridge subdivision can be developed.

David Ellison was given an opportunity for rebuttal of the comments and spoke regarding the hardships of current residents, but stated that the property owner is required to comply with comprehensive plan, and that the property owner’s interests should be considered over the interest of short term tenants.

Chairman Yarbrough closed the Public Comment period.

The Planning Commission discussed its concerns/comments including but not limited to: the need for additional ingress/egress to Tanglebrook Subdivision in the future; a suggestion that the owner/developer consider an agreement with displaced residents to help defray relocation costs; concerns about the incompatible land use buffer variance requested as a companion to the present request; request to add a condition that a 50’ incompatible land use buffer will be installed if the companion variance is denied.

There being no further questions or comments from the commission, a motion was in order.

Motion by Chuck Hunt to approve the request subject to six conditions recommended by staff and one additional condition (#7) requiring a 50’ incompatible land use buffer to be installed in the event that the companion variance application is denied. Second by Mike Floyd. The motion passed unanimously.
