CONDITIONS

This Zoning Amendment shall be subject to the following conditions which shall be fulfilled by the developer at his/her expense:

1. The subject property shall be subdivided in accordance with the procedures for minor subdivision plat approval, as outlined in the Oconee County Unified Development Code.
2. The subject property shall only be subdivided into 3 tracts, as illustrated on the rezone concept plan.

NARRATIVE

The Site:

The property being requested for the AR-5 rezone is a tract on a survey by Ben McLeroy & Associates Inc. The site is located on Highway 186 and is identified by tax parcel number A-07-002. The site is currently vacant land/timber tract zoned A-1 and does not contain a residence. The property will be accessed via individual drives along Highway 186.

Adjacent Land Uses:

All parcels bordering this site are zoned A-1 ranging from multiple tracts of approximately 10 acres to a 122.75 acre parcel with two exceptions. The two exceptions are Boulder Springs Subdivision and Rolling Glenn Subdivision of which both are zoned AR-1.

Development Intent:

The property owner would like the ability to sell parcels of a minimum of 5 acres and maintain the wooded character. Currently, the owner is considering dividing the land in 3 equal tracts to the estate beneficiaries. The utmost care will be taken to ensure that development is in such a way that will only enhance the quality and character of Oconee County.

Zoning Request Justification:

The property owner proposes to rezone the tract from A-1 to AR-5. This zoning promotes a suitable environment for family life and discourages any use that would generate anything other than residential traffic. The designation is intended primarily for single family development. By providing a low rural residential density, the zoning will ensure that the development remains compatible with the agricultural land use and other single-family residences in the vicinity, without encouraging commercial development of a multi-family development.

Impact to School System:

This development will result in no more than a few homes. Therefore, no significant impacts will occur to the Oconee County school system.

Buildings:

Homes will be determined by property owners concerning size, style, construction, and exteriors, in accordance with county requirements.

Traffic Impacts:

Minimal.

Water Supply:

Private wells.

Sanitary Sewer Requirements:

On-site septic systems.

Proposed Utilities:

Electricity, cable, gas, and telephone will be provided to the site by private service providers.

Buffer and Required Plantings:

The Unified Development Code requires no buffers between the existing designations and proposed zone.

Outdoor Lighting:

No additional security lighting is proposed.

Sidewalks:

No sidewalks are proposed.

Maintenance:

The owner(s) of the residences will be responsible for all maintenance.

Garbage Pickup:

Private service providers.

Signs:

No signage is proposed.

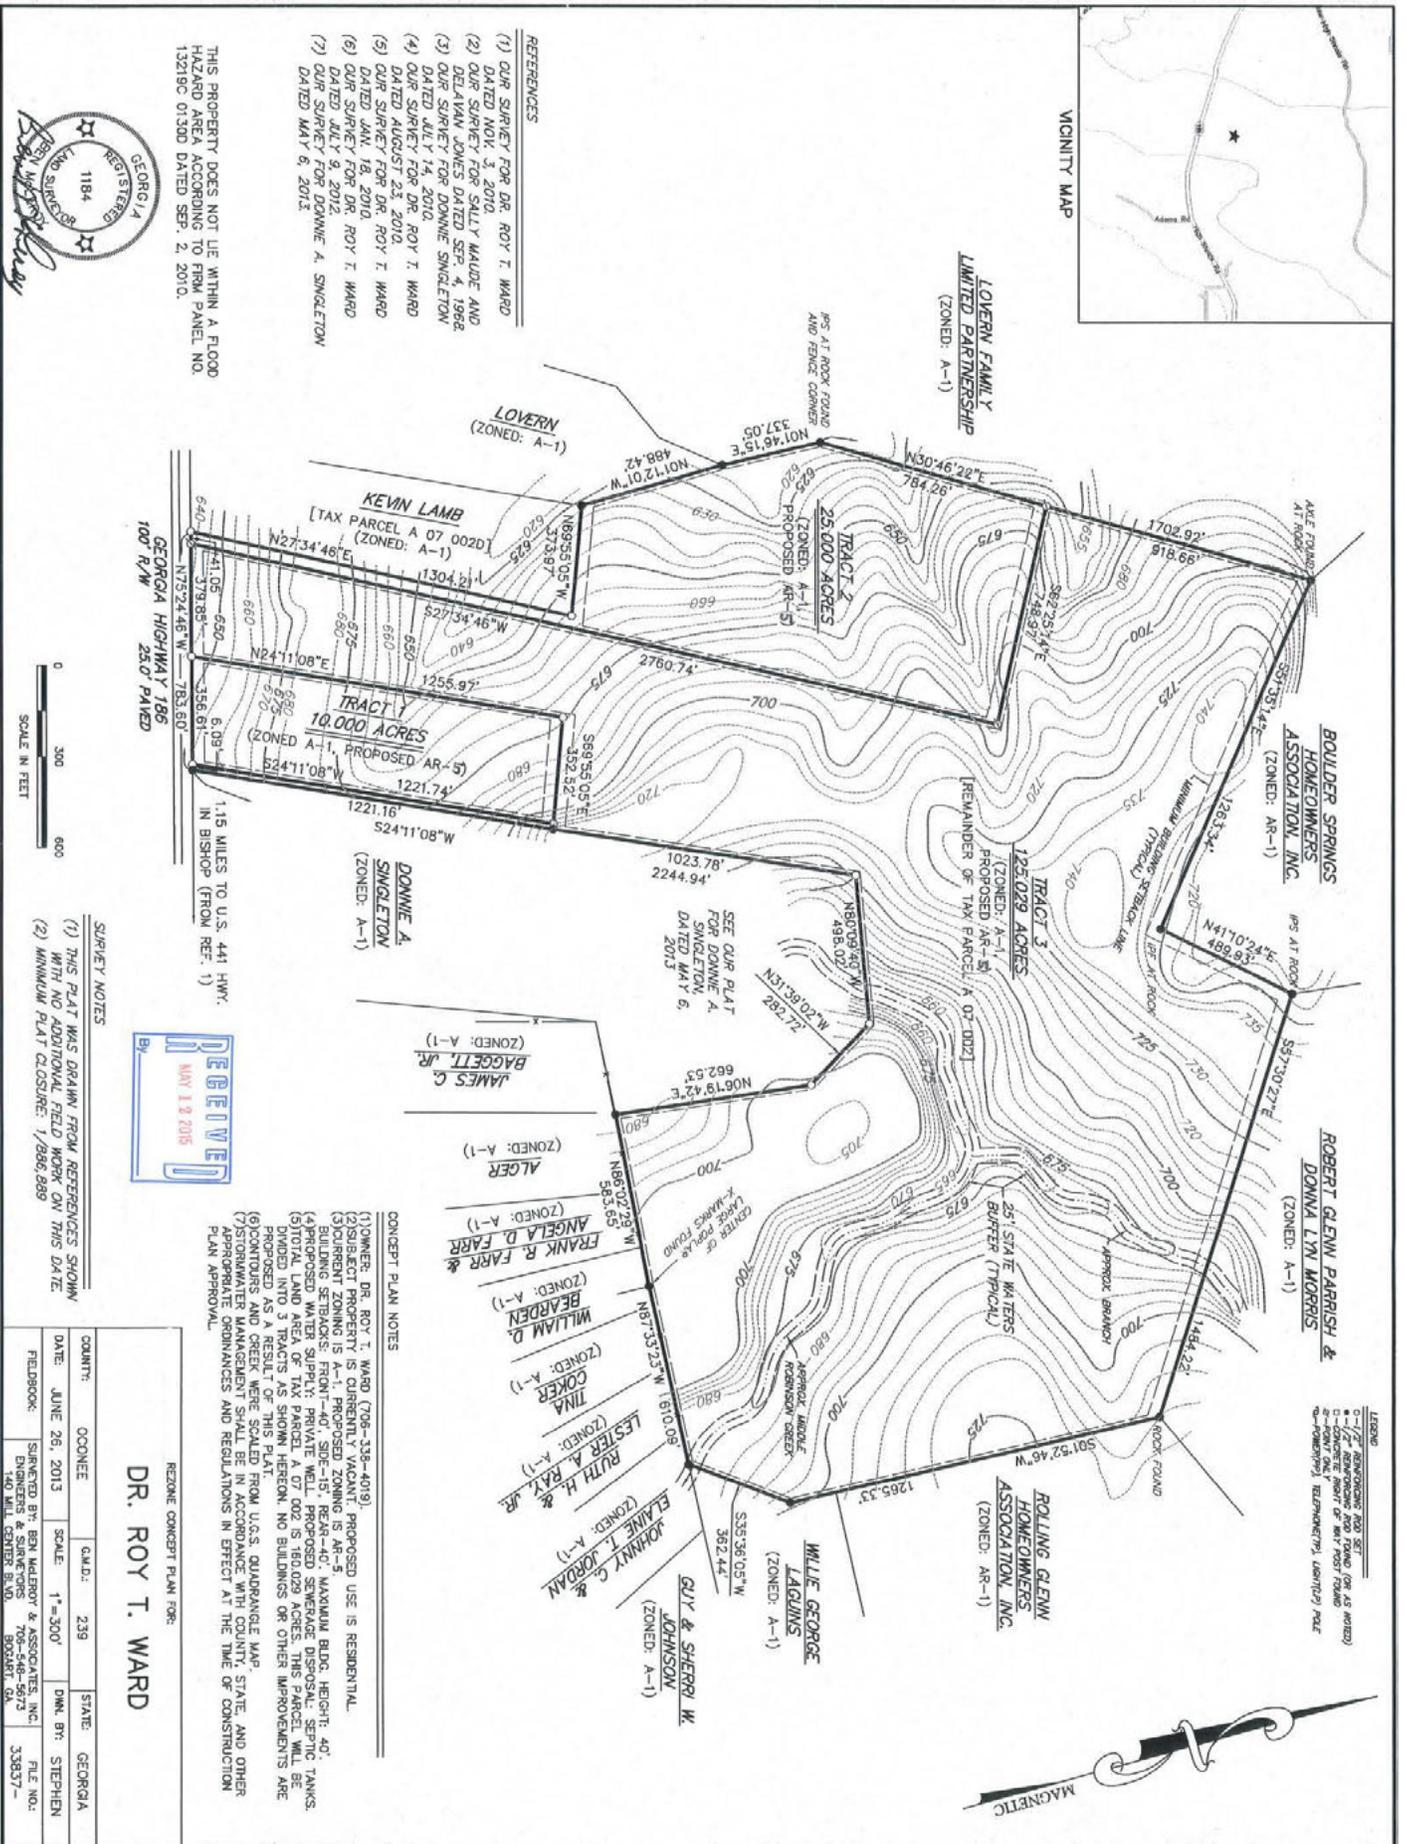

Parking:

Traditional residential parking pads.
